

# ADH Spooling Tapes

Spooling method rewinded narrow width tape rolls.

## Features

- Can contain many times longer length in one roll
- Thinner tapes will yield longer roll length
- Narrow width tapes do not collapse and easy to handle
- Economical to pack and ship
- Best for single side coated tapes or thin films

## Properties

Parameters	Standard Values
Core ID	76.7mm
Core Width	50mm
Roll Max. OD	230mm
Tape Max. Width	15mm
Tape Min. Width	3mm

Other specifications can be customized.

## Applications

- Fast running machines with no frequent stoppages
- Rotary die-cut machines – Pick up Tapes or Slug Pullers
- Auto-packing, taping or wrapping machines
- Narrow slitted width tapes with long roll length
- Narrow slitted width tapes with problems of winding tension and collapse tendency

### Disclaimer
