

TECHNICAL SPECIFICATIONS

ADH Fixcherfree

ADH Fixcherfree is a very useful tool for temporary holding of small objects without leaving any stain or mark on the surface after removal.

It pairs perfectly with our **ADH Pikaleen** when performing pick & place actions, surface cleaning and assembly of micro-parts.

Covered with clear plastic box

Features

- Easy to hold or release without mechanical fixture
- **Embossed** texture for lower adhesion; **Gloss** texture for higher adhesion
- Clean room compliant; ESD safe
- No stain; No mark; No surface scratch

Properties

Dimension	: 173 x 102 x 3mm (L x W x T)
Surface Adhesion (Gloss side) [PET Film x 180° Peel x 300mm/min]	: 150±30 gf/25mm
Surface Adhesion (Embossed side) [PET Film x 180° Peel x 300mm/min]	: Avg. 65±15 gf/25mm
Hardness	: 20 ~ 30°
Operating Temperature	: 10 ~ 60°C

Applications

- For temporary holding without using mechanical jig or fixture.
- During assembling, sorting or surface cleaning of optical lens and prisms, display panels, image sensors etc.
- During processing of small delicate parts, components or modules, such as making or repairing of jewelry, ornaments, watches, scale models, watches etc.

Recommended Shelf Life

12 months from the date of delivery and remain within the original packaging.
Avoid direct sunlight and store in room temperature.

Packing Standard To be advised.

"RoHS Compliant and Halogen Free"
